The exhibition is very good and can easily find the products we want. I am here to find new products. The networking is very good. I have been talking with several manufacturers. It is really helpful to me.

Exhibitor

It's the third time to be here on CIHS in the German pavilion. We have got a lot of visitors from countries close to China such as friends from Korea, Japan, Pakistan... We believe that the CIHS is the very good entrance to the Chinese market, but also to serve our established customers here.
